Commissioner Morman Begins Playground Upgrades at Clear Lake Park

SEABROOK, Texas – Starting Monday, May 16th, crews will begin playground upgrades at Clear Lake Park. Upgrades include the replacement of older playground equipment and installation of rubberized fall surfaces, shade canopies, and a handicap-accessible feature.

“Clear Lake Park is a popular location for family activities, particularly for children. It’s always a good feeling to offer our kids a better version of what we had growing up, especially in a location that impacts so many,” said Commissioner Jack Morman.

The new playground sets, designed by AllPlay Development Company, will be equipped to accommodate children from ages 2 through 12. The project is expected to be complete by late July.
